The President's Address

As I am sitting typing this report it is a couple of days before the New Year is upon us, and it does not seem to be 15 years since we were going into the new millennium. Time just flies especially when you are getting old. This is the problem at the moment with UPP in that the average age of our members is getting higher. Whilst members are retiring, quite understandable through old age and infirmities, we are not getting the same number joining who are considerably younger and so our numbers have dropped. Each year at the AGM we give out long term certificates for 25 years and also for 50 years.

Not many societies in this country can give out certificates for that length of mem-

bership.

The average age of members joining appears also to be increasing and this will mean that we will not be awarding as many certificates in years to come. This however is not uncommon with societies as a whole in the country. At the present time. I see it all of the time as treasurer for N&EMPF. I see the annual returns of clubs in the North East Midlands and it is surprising how they fluctuate, this indicating that they are gaining new members and losing them. We in the past have retained our membership but the same is likely to occur with UPP. This means that we must all try to ensure that our membership is maintained or increased by introducing new members. The best advert is personal contact so please make a New Year's resolution, that you will all introduce one new member to our society.

Last year's Convention was very well received and all of the comments that I received were on how much they had enjoyed the two lectures and they were so different. Barry Mead FRPS EFIAP/p MPAGB gave a very varied show of natural history as well as creative images indicating his imaginative approach to photography. Peter Paterson FRPS EFIAP MPAGB showed some excellent landscape images as well as some creative work. There is no charge to members for attending the lectures and they were fully well worth travelling to Birmingham to see, as well as meeting, other members of your circle and UPP and the display of the whole of the Gold Label images of the society. It is a complete day of high quality photography so come along and be inspired.

Next year the AGM is on the 5th September as we have to fit around Union meetings It has been agreed however that

after next year the third weekend will be booked for us on a regular basis. We have also decided to drop the Sunday trip off the agenda as the take up for it over the last few years has declined to nil. It should always be remembered that we are only organising the convention for you, and if you have any comments please let us know them

Over the years I have been very impressed by the high standard of portraits in the gold label presentation. I have therefore decided that I will present to the society an additional trophy for the best human portrait as selected by the judges. We already have trophies for natural history and landscapes and I do consider that portraits are equally as specialised as those disciplines and so I offered this additional award. I look forward to presenting it to the first winner at the Convention.

Brian Davis APAGB CPAGB

How lucky can you be?

You can never guess what's around the corner when you are out with the camera.

In August I travelled to Eastnor Castle for a radio control model Air Show and wandering by the boating pond saw a crowd had gathered to watch a display of an expensive and large helicopter. It was brand new and the pilot removed it from its box to set it up ready for a maiden flight. Off it went and the guy was good; racing around the sky it was mesmerising but then he had to try it.

Out over the water he hovered upside down but the crowd wanted more. Lower they cried and down went the helicopter.

Lower they cried again. The helicopter was, by now, only inches from the surface

still the crowd bayed. Well, I'm sure you have guessed what happened next. The helicopter sank out of sight to be recovered by the safety boat fifteen minutes later.

The crowd dispersed and the last I saw was the red-faced pilot explaining to his boss what had happened.

A visit to the Welsh Wildlife Centre in October with family found us in a hide and this fellow entertained us for an hour flitting about within thirty feet of our camera lens

And finally.....

Congratulations to those of you who have their work displayed in this issue of *The Little Man* but we are short on the words. Once again I am asking for submissions for the next edition that would be of interest to your fellow Members. I had some space to fill so a few words and a couple of pictures.....job done! Get lucky and I hope to see some words, of your adventures, when you have been out with the camera. Happy New Year.

David R Neal Editor of *The Little Man*

If you were unable to make the Convention this year then why not order our DVD where you can enjoy all the gold pictures in the comfort of your own home. The standard of quality will still be as high as in previous years for PC or MAC.
